

Kids

Boost third graders' knowledge base and prepare them for the STAAR Reading test while expanding their knowledge bases. By implementing this resource into instruction, students will sharpen their comprehension and critical-thinking skills to build the stamina necessary to succeed on the state test. Featuring TIME for Kids content, this resource offers high-interest informational texts, engaging literature passages, and poems. Questions are carefully crafted to guide students as they approach the texts and share their understanding. These practice exercises help students with skills such as the following: making inferences and drawing conclusions analyzing the development of ideas or characters, identifying author's viewpoint, and identifying main idea, theme, and supporting details. This must-have resource is perfect to help promote the use of skills needed for success in the 21st century.

JavaScript is the programming language of the Internet, the secret sauce that makes the Web awesome, your favorite sites interactive, and online games fun! JavaScript for Kids is a lightweight introduction that teaches programming essentials through patient, step-by-step examples paired with funny illustrations. You ' ll begin with the basics, like working with strings, arrays, and loops, and then move on to more advanced topics, like building interactivity with jQuery and drawing graphics with Canvas. Along the way, you ' ll write games such as Find the Buried Treasure, Hangman, and Snake. You ' ll also learn how to:
— Create functions to organize and reuse your code
— Write and modify HTML to create dynamic web pages
— Use the DOM and jQuery to make your web pages react to user input
— Use the Canvas element to draw and animate graphics
— Program real user-controlled games with collision detection and score keeping
With visual examples like bouncing balls, animated bees, and racing cars, you can really see what you ' re programming. Each chapter builds on the last, and programming challenges at the end of each chapter will stretch your brain and inspire your own amazing programs. Make something cool with JavaScript today! Ages 10+ (and their parents!)

Take a world tour through 200 countries with this brand new edition of the bestselling kids' version of Lonely Planet's popular The Travel Book, loaded with thousands of amazing facts on wildlife, how people live, sports, hideous and mouthwatering food, festivals and a wide range of other quirky insights on every page. The Black Kids

This is a textbook for elementary level children that teaches the basic concepts of the last 37 chapters of the holy Qur'an. It contains the full Arabic text, along with simple translations into English of the meaning, transliterations, chapter introductions, engaging graphics, review questions and activities.

We are not born hating our bodies. Make sure your kids never do. No parent wants their child to grow up with anything less than wholehearted confidence in themselves. Sadly research shows that children as young as five are saying they need to "go on a diet" and over half of 11 to 16-year-olds regularly worry about the way they look. Campaigner and mum-of-two-girls Molly Forbes is here to help. In Body Happy Kids, Molly draws on her own experience and a range of experts to provide parents with a much-needed antidote to the confusing health advice that bombards us every day. This reassuring and practical guide covers everything you need to help your child to care for their body with kindness, including how to approach good nutrition (without falling for diet culture), how to see the reality behind beauty ideals and how social media can be used to support body confidence rather than destroy it. With Molly's help, you can arm yourself with the insight and tools to raise resilient children who love the skin they're in.

20 easy, dynamic projects to decorate your childrens' rooms-from wall borders to furniture to entire room themes. Step-by-step instructions, gorgeous photos, and punch-out color stencils are provided for each project Helpful introduction contains information on materials, techniques, and how to get started. Designer tricks of the trade offer further techniques and inspiration. Creative project variations inspire ideas for hundreds of additional projects.

These easy-to-use and kid-focused talks build on the attachment kids have to their favorite toys to help them remember important lessons about God. These resources are ideal for quick lessons or attention-getting visuals to supplement existing lesson materials. Just use items from your kitchen, craft basket, or tool chest to create lessons that fascinate children, illustrate a biblical truth, and deliver memorable messages your kids will love.

Offers instructions for preparing vegetarian dishes that appeal to children, with meal planners for balancing their nutritional needs.

If you're in the business of marketing or developing products and programs for kids, What Kids Buy and Why belongs in your office. How can you create outstanding products and programs that will win in the marketplace and in the hearts of kids and parents? Dan S. Acuff and Robert H. Reier have invented a development and marketing process called Youth Market Systems that puts the needs, abilities, and interests of kids first. This system makes sure you won't miss the mark whether you're trying to reach young children or teens, boys or girls, or whether you're selling toys, sports equipment, snacks, school supplies, or software. Based on the latest child development research, What Kids Buy and Why is chock-full of provocative information about the cognitive, emotional, and social needs of each age group. This book tells you among other things--why 3-through-7-year-olds love things that transform, why 8-through-12-year-olds love to collect stuff, how the play patterns of boys and girls differ, and why kids of all ages love slapstick.What Kids Buy and Why is the result of Acuff and Reiner's almost twenty years of consulting with high-profile clients including Johnson & Johnson, Nike, Microsoft, Nestle, Tyco, Disney, Pepsi, Warner Brothers, LucasFilm, Amblin/Spielberg, Mattel, Hasbro, Kraft, Coca-Cola, Quaker Oats, General Mills, Broderbund, Bandai, Sega, ABC, CBS, I-HOP, Domino's, Hardee's, and Kellogg's. Special attention is given to an innovative matrix for speedy, accurate product analysis and program development a clear, step-by-step process for making decisions that increase your product's appeal to kids tools and techniques for creating characters that kids love Here is the complete one-stop tool for understanding what children of all ages want to buy.

Sociologists often study exotic cultures by immersing themselves in an environment until they become accepted as insiders. In this fascinating account by acclaimed researcher William A. Corsaro, a scientist "goes native" to study the secret world of children. Here, for the first time, are the children themselves, heard through an expert who knows that the only way to truly understand them is by becoming a member of their community. That's just what Corsaro did when he traded in his adult perspective for a seat in the sandbox alongside groups of preschoolers. Corsaro's Journey of discovery is as fascinating as it is revealing. Living among and gaining the acceptance of children, he gradually comes to understand that a child's world is far more complex than anyone ever suspected. He documents a special culture, unique unto itself, in which children create their own social structures and exert their own influences. At a time when many parents fear that they don't spend enough time with their children, and experts debate the best path to healthy development, seeing childhood through the eyes of a child offers parents and caregivers fresh and compelling insights. Corsaro calls upon all adults to appreciate, embrace, and savor their children's culture. He asks us to take a cue from those we hold so precious and understand that "we're all friends, right?"

A list of things for anyone to remember they deserve, just for being on this beautiful planet. This book is a meditative piece of art on personal and societal mental health. It's for children, young adults and adults alike. It's a great conversation starter and helps focus on what matters through dialogue and reflection.

A Parent's Guide to Exploring Fun Places in Ohio With Children...Year Round

Stenciling Kids' Rooms

Object Talks from Toys Kids Love

Kids Love Kids Free provides more than a checklist of behaviors associated with drug abuse. It gives parents dearly written, straightforward advice on how to make a difference in their children's future.The D.A.R.E. Official Parent's Guide helps parents to:
-- Educate their kids about the responsible use of alcohol, tobacco, and other drugs
-- Teach kids how to resist destructive influences from drugs, gangs, violence, negative peer pressure
-- even the media
-- Promote children's self-esteem and assertiveness
-- Use practical techniques for teaching values and the difference between right and wrong
-- Establish rules of acceptable behavior; set enforceable limits
-- Listen to their children and understand the issues that are troubling them
-- Develop closer, more open relationships with their children
-- Raise kids to make positive choices

An art therapy and activity book for children coping with death. Sensitive exercises address all the questions children may have during this emotional and troubling crisis. Children are encouraged to express in pictures what they are often incapable of expressing in words.

Spread the joy and craft of books in your family with Making Books with Kids. An inspiring collection of ideas and projects for encouraging an artistic spirit in children! Making Books with Kids features more than 25 creative, kid-friendly projects in design, illustration, paper decorating, binding techniques and more. Book artist and author Esther K. Smith offers an exciting resource of easy-to-follow instructions supported throughout with step-by-step, full-color photographs and illustrations. Each sequence is accompanied by finished samples and variations as well as the inspiring work of a prominent book artist. Whether you use these projects independently or as a curriculum for hands-on, family-friendly, bookmaking experiences, you'll find that the lessons in this book are open-ended so they can be explored over and over--with different results each time! Colorful photos illustrate how different people using the same lesson will yield different results, exemplifying the way the lesson brings out each artist's personal style. Making Books with Kids is the perfect book for creative families, friends, and community groups and works as lesson plans for both experienced and new art teachers. Children of all ages and experience levels can be guided by adults and will enjoy these engaging exercises. Spread the love of--and craft of--books in your family with Making Books with Kids.

A New York Times bestseller "Should be required reading in every classroom." —Nic Stone, #1 New York Times bestselling author of Dear Martin "A true love letter to Los Angeles." —Brandy Colbert, award-winning author of Little & Lion "A brilliantly poetic take on one of the most defining moments in Black American history." —Tiffany D. Jackson, author of Grown and Monday's Not Coming Perfect for fans of The Hate U Give, this unforgettable coming-of-age debut novel explores issues of race, class, and violence through the eyes of a wealthy black teenager whose family gets caught in the vortex of the 1992 Rodney King Riots. Los Angeles, 1992 Ashley Bennett and her friends are living the charmed life. It's the end of senior year and they're spending more time at the beach than in the classroom. They can already feel the sunny days and endless possibilities of summer. Everything changes one afternoon in April, when four LAPD officers are acquitted after beating a black man named Rodney King half to death. Suddenly, Ashley's not just one of the girls. She's one of the black kids. As violent protests engulf LA and the city burns, Ashley tries to continue on as if life were normal. Even as her self-destructive sister gets dangerously involved in the riots. Even as the model black family facade her wealthy and prominent parents have built starts to crumble. Even as her best friends help spread a rumor that could completely derail the future of her classmate and fellow black kid, LaShawn Johnson. With her world splintering around her, Ashley, along with the rest of LA, is left to question who is the us? And who is the them?

The Kids' Business Book

In Those Kids, Our Schools, Shayla Reese Griffin examines patterns of racial interaction in a large, integrated high school and makes a powerful case for the frank conversations that educators could and should be having about race in schools. Over three years, Griffin observed students, teachers, and administrators in a "post-racial" exurban high school in the Midwest. In its hallways, classrooms, lunchrooms, and staff meetings, she uncovered the disturbing ways in which racial tensions and prejudices persist and are reinforced. Students engaged in patterns of behavior that underscored racial hierarchies.

Teachers—no matter how intellectually committed to equity and diversity—often lacked the skills, resources, or authority to address racial issues, while administrators failed to acknowledge racial tensions or recognize how school practices and policies perpetuated racial inequality. This astute and thoughtful book offers a revealing glimpse into the world of young people struggling with the legacy of racism. More important, it highlights the disservice being done to all students in our schools when educators fail to critically interrogate issues of race. Griffin's perceptive analysis illuminates the persistent influence of race in our education system and shows how—with appropriate support—teachers and students can develop the capacity to address racial issues and dynamics in schools in a frank and constructive way.

Discusses healthy eating and nutrition for children with type 1 and type 2 diabetes and provides recipes for main dishes, snacks, and desserts. Includes "fun food facts."

Discover hidden castles, a whistle factory, and Ohio history come to life! Over 800 "kid-tested" sites to visit all over Bicentennial Ohio. Author parents actually research, write and publish books from a "Mom & Dad's" point of view. Our travel guides save parents time and money...Time, researching for ideas that are "kid-friendly"...Money, because most sites are inexpensive. The authors and children have become the family that "vacations for a living"!

As a parent you want the best for your kids. You work hard to provide every advantage you can. You want them to be safe, smart and healthy. Yet, when it comes to money, it's a whole different story. If you're like most people, you'd rather run a mile through a desert with a camel on your back than talk financial realities with your children. Your parents told you that talking about money just wasn't polite. Look where that left you! A healthy, balanced attitude towards money begins when kids are just toddling, so pull your head out of the sand and roll up your sleeves. Gail Vaz-Oxlade, Canada's #1 personal finance expert, will teach you everything your children need to know. Gail believes that building confidence and money skills starts with an age-appropriate allowance. In Money-Smart Kids, she'll show you how to start an allowance and use it effectively to help your kids: make saving a habit learn the difference between a need and a want use the "magic jars" to balance competing goals create life-long money management ealters What better gift could you give your kids than the confidence to control their money, rather than letting their money control them? Let Gail help you raise Money-Smart Kids.

Reviews twenty-five family films the editors believe have a strong moral focus, each with a story summary, a list of themes, cautionary notes, Bible references, discussion questions, and follow-up activities.

No one exemplifies the angst of the Depression era street kid more than The Dead End Kids. They were the stars of Sidney Kingsley's 1935 play, Dead End, and reprised their roles in Samuel Goldwyn's 1937 Hollywood film version. The movie defined the theme of slum dramas for the juvenile rebellion films of subsequent decades. The Dead End Kids were Billy Halop, Huntz Hall, Bobby Jordan, Leo Gorcey, Gabriel Dell, and Bernard Punsky. The best of their films were the gangster movies where the boys collided with the likes of Humphrey Bogart in Dead End and Crime School, James Cagney in Angels with Dirty Faces and John Garfield in They Made Me a Criminal. They banded about lightweights like Ronald Reagan in lackluster efforts like Hell's Kitchen and Angels Wash Their Faces before being reformed by a military academy in On Dress Parade. Their original reign was short-lived, not because they ran out of steam but because they had to be toned down due to criticisms. It didn't matter because The Dead End Kids mutated into several splinter groups that starred in various configurations of the original members for the next quarter century, carving out a unique niche in motion picture history. One of the uncharted tributaries of this history is the solo careers of the actors who played the Dead End Kids. There were careers of mixed blessings after the initial stardom and each member faced and dealt with the typecasting dilemma in different ways and various degrees of success. 388 pages. Illustrated.

"While a bit uneven, this vivid work delivers a smorgasbord of practical ideas and fun recipes." -- Kirkus Review
How can I make sure that my child is well nourished? How can I restore good relations between parents and children in our family?" Only people with a first-hand experience with fussy and picky children can fully grasp the challenge for the family. In this guide, three renowned professionals join forces to help families deal effectively with the issue: Pavlos Sakkas, a professor of psychiatry, analyses step by step how the family meal may well turn into a conflict between child and parents, emphasises the danger of the ever-lurking anorexia nervosa and shows how to eliminate these issues. George Moustakas, a paediatrician, offers helpful information and tips for children's nourishment and redeems the reputation of tasty foods such as butter, chocolate, salt, etc. Eirini Togia, the internationally famous and global award-winning chef better known as "Rena tis Ftelias", shares Mediterranean-style recipes that appeal even to the fussiest children. The guide is also a source of practical, hands-on tips and insights described through real-life personal stories of adults who had been fussy themselves or who had picky children. The experts' comments on the stories shed more light and reveal hidden aspects. Finally, the book provides useful advice gleaned from recent academic studies, surveys, and researches, a world bibliography, and guidelines from the National Health System in the UK (NHS Choices). Editor's preface It is not by coincidence that the authors are editors of this book are all of the Mediterranean origins. In this part of the world, food is a source of joy and well-being. It is a matter of concern that is worthy of attention. A holistic approach was the concept of the first edition, published earlier this year in Greece. It aimed to help expand a child's appetite as well as to highlight the family dynamics that may trigger this kind of behaviour. The success of the first Greek edition as well as substantial research evidence suggesting that these issues are, after all, common around the world, led us to this enhanced international publication in the English language. Introduction If you are reading this book, there is a good chance you may feel challenged by a child's eating behaviour. What is a fussy or a picky eater? Is there a difference with neophobia? Yes, there is. What is the primary root of the problem? Parents' behaviour and their relationship with their children. Do you know that if you change the colours and taste, with appropriate preparation, of the main foods that are usually rejected by picky children, the same children will eat them up? These are only some of the topics covered in this guide: Fundamental rules for parents to obtain and increase skills in behaving consistent and straightforward behaviours in their children with delicacies and children-friendly decorated dishes. Parents' anxiety control and their knowledge about the phenomenon and its types and what is normal or not remains a key. Because the solution requires knowledge of the problem for the parent to ask for help promptly from a doctor who is the only person and professional that can help solve this issue. This is the goal of this guide which covers eating difficulties from toddler age through to adolescence in five sections. KIRKUS REVIEW "Three experts present a guide that's part cookbook and part advice for worried parents. Bubbling with hands-on tips for coaxing stubborn children to eat, this cheerful manual for parents garners information from sources like Britain's National Health Service. Divided into five easy-to-read parts, the volume provides many color photographs from various sources of expressive kids and delectable dishes scattered throughout the pages. Section 1 features compelling testimony of a childhood eating disorder suffered by Sakkas (Revealing Psychiatry, 2015), a psychiatry professor from the National and Kapodistrian University of Athens. But his dark tone may startle some when he writes that in a family power struggle, children who won't eat are "perverts" who are willing to suffer to punish their parents. Continuing the discussion, pediatrician Moustakas suggests using the senses—and a variety of colors—to induce children to eat. The debut author notes that kids love to touch their food, so anything too "hard or gluey" could be displeasing to them. Perhaps surprising to some, butter and sea salt are offered as "necessary" ingredients for children's health. Section 2 presents 30 kid-friendly recipes—including veggie burgers, cheese cupcakes, pizza, and omelet wraps—by chef Togia (A Taste of Greece, 2014, etc.). Her pleasant dishes, like savory "Granny's meatballs," could make little mouths wary. Likewise, kids who help prepare creative concoctions, such as the egg-based "Toasted smiley face," are more likely to be enthusiastic eaters. Written in a friendly, first-person voice, the guide provides recipe instructions that are clear and concise. But some recipes, such as "Chocolate cookies," require knowledge of grams or kilograms—and will likely be confusing for readers who measure with cups or pounds. Inspired by Togia, a dad shares his own recipe ideas in Section 3—for example, pizza with vegetables. In Section 4, Sakkas returns with a thoughtful analysis of an eating disorder. After supplying 15 obvious tips—including that parents should remain calm—this well-referenced volume concludes with a useful glossary and appendices for further reading. While a bit uneven, this vivid work delivers a smorgasbord of practical ideas and fun recipes."

Guaranteed to keep kids laughing for hours! Brain teasers and riddles have been proven to build kids' mental acuity. The Everything Kids' Riddles and Brain Teasers Book does this and more, giving children a place to learn—and laugh—all in one! Packed full of puzzles, games, and activities, The Everything Kids' Riddles and Brain Teasers Book is sure to keep audiences in stitches.

A guide for parents to help their children better understand the world around them by helping them think through the questions they face regarding honesty, friendship, sensitivity, fairness, dedication, individuality and 103 other character-building issues Many families and almost all schools spend a great deal of time developing children academically, but studies show tht scholastic achievement is not the only key to future success. Developing non-cognitive skills, which children often learn from their parents, is equally relevant. Talk with your kids about an effective discussion between parents and children by posing 109 open-ended questions. Many of the questions reflect situations immediately relevant to kids, such as cyber-bullying, cheating in school or in sports, accepting differences, illegal music downloads, what defines lying, and making choices about drugs and sex. Other questions ask kids to consider larger dilemmas, such as medical ethics and medical testing, declaring war, crime and punishment, eating meat, and more. Parker also offers suggestions to parents on how to keep the conversations going and encourage kids to think more deeply about an issue. Throughout the book are questions based on the theories of famous ethicists and philosophers, including John Stuart Mill, Immanuel Kant, Thomas Hobbes, and Jean Jacques Rousseau. Best-selling parenting books such as How Children Succeed and Nurtureshock emphasize the importance of strong values in a child. The conversations in Talk with Your Kids help parents achieve this goal.

When your parents tell you that they are getting divorced, you might have lots of big feelings- like anger, fear and sadness -and lots of questions too. This journal is packed full of activities that will help you work through these feelings and get your thoughts and questions out into the open. This journal from parenting expert Sue Atkins gives children aged 7+ a safe place to express their feelings about divorce and the resulting changes, so that they can start to understand them. Full of creative activities to help them process this life-changing event, it provides children with a source of strength and comfort through this challenging time, as well as giving them a way of sharing how they are feeling with a trusted adult.

The true story of four siblings who lost their parents in the devastating Sri Lankan tsunami and how they turned tragedy into inspiration On December 26, 2004, Rob, Paul, Matty, and Rosie Forkan tragically lost their parents in the tsunami that devastated Sri Lanka. Aged from 8 to 17, they subsequently faced a harrowing and solitary 124 mile trek across the decimated country to get home to safety. The bravery, ingenuity, and resilience they displayed was the result of their unusual upbringing. Taken out of school at a young age, they received an unconventional and global education, learning independence and resourcefulness while carrying out voluntary work for charities in India alongside their parents. In the decade since the tsunami, Rob and Paul have achieved an incredible feat. They have created a multinational brand, Gandy's Flip Flops, based in the front room of their rented flat and endorsed by entrepreneurs including Richard Branson, and set up Orphans for Orphans, a charitable organization that uses 10% of the profits to support children deprived of education, nutrition, and medication. This is a heartbreakng, engaging, but ultimately uplifting journey from the streets of Sri Lanka to the boardrooms of London and beyond, as told by two inspirational survivors.
