disturbing portrait of black womanhood in modern society. In Algorithms of Oppression, Safiya Umoja Noble challenges the idea that search engines like Google offer an equal playing field for all forms of ideas, identities, and

activities. Data discrimination is a real social problem; Noble argues that the combination of private interests in promoting certain sites, along with the monopoly status of a relatively small number of Internet search engines, leads

# Access Free Sample Apa Paper Doc

to a biased set of search algorithms that privilege whiteness and discriminate against people of color, specifically women of color. Through an analysis of textual and media searches as well as extensive research on paid

online advertising,  
Noble exposes a  
culture of racism and  
sexism in the way  
discoverability is  
created online. As

bias on the internet,  
Algorithms of

contributes to our
