Anxiety is real--but it isn't the end of your story. Dr. John Delony knows what anxiety feels like. He's walked that dark road himself, but he found light and hope on the other side of it. Bringing together his own journey and two decades of counseling and research, he walks you through:
The four biggest myths about anxiety and the life-changing truth
Practical steps you can take today to start getting your life back
Long-term strategies for healing to help you move forward
John will show you that most of what you've heard about anxiety is wrong. Things like:
If you have anxiety, you're broken and need to be fixed
Anxiety is a disease that can only be cured with medicine
Anxiety is caused by your genetics
While mental health is complex, our culture has made anxiety into something it's not. For the majority of people who face anxiety, the truth is simpler than we think: anxiety is an alarm. It's a signal--nothing more and nothing less. Anxiety is simply our body's way of telling us something is wrong. If we stop and listen, we can calm the alarm and move forward into healing and hope.

Drawing from research as well as the authors' clinical experience, it focuses on the essential skills children need to make the most of their abilities and become capable, confident, and caring people.

Journal your way to contentment in just 90 days. #1 New York Times best-selling author Rachel Cruze guides you on a 90-day journey toward contentment--one where you actually love your life and not someone else's. Let's be honest: We've all compared ourselves to others. You scroll through social media and see someone's latest vacation and think, "Must be nice..." Just like that, you feel like your life isn't good enough. Rachel knows the struggle is real because she's experienced the same thing. So, she created a 90-day journal to help you stop comparing your life to others and be happier than you've ever been. The Contentment Journal is divided into 30-day increments: The first 30 days focus on gratitude - where you'll recognize the blessings in your life. The next 30 days focus on humility - where you'll think of others more and of yourself a little less. The last 30 days focus on contentment - where you'll be happy for others and not want what they have. Study after study backs up that your relationships, health, decision-making skills, kindness, and even sleep can get better with gratitude. The Contentment Journal will help you grow and change in ways you can't yet imagine. Through personal stories and daily writing prompts, Rachel will guide you day by day, week by week to feeling more thankful. Motivational quotes and reflection pages will encourage you to keep going! If you give Rachel 5-10 minutes a day for 90 days, she'll help you adjust your whole outlook, so you avoid the comparisons and experience lasting contentment.

The Art of War is an enduring classic that holds a special place in the culture and history of East Asia. An ancient Chinese text on the philosophy and politics of warfare and military strategy, the treatise was written in 6th century B.C. by a warrior-philosopher now famous all over the world as Sun Tzu. Sun Tzu's teachings remain as relevant to leaders and strategists today as they were to rulers and military generals in ancient times. Divided into thirteen chapters and written succinctly, The Art of War is a must-read for anybody who works in a competitive environment.

What does the Bible really say about money? About wealth? How much does God expect you to give to others? How does wealth affect your friendships, marriage, and children? How much is " enough" ? There 's a lot of bad information in our culture today about wealth and the wealthy. Worse, there 's a growing backlash in America against our most successful citizens, but why? To many, wealth is seen as the natural result of hard work and wise money management. To others, wealth is viewed as the ultimate, inexcusable sin. This has left many godly men and women confused about what to do with the resources God 's put in their care. They were able to build wealth using God 's ways of handling money, but then they are left feeling guilty about it. Is this what God had in mind?

New York Times Bestseller “We all want to raise children with good values—children who are the opposite of spoiled—yet we often neglect to talk to our children about money. . . . From handling the tooth fairy, to tips on allowance, chores, charity, checking accounts, and part-time jobs, this engaging and important book is a must-read for parents.” — Gretchen Rubin, author of The Happiness Project In the spirit of Wendy Mogel’s The Blessing of a Skinned Knee and Po Bronson and Ashley Merryman’s Nurture Shock, New York Times “Your Money” columnist Ron Lieber delivers a taboo-shattering manifesto that explains how talking openly to children about money can help parents raise modest, patient, grounded young adults who are financially wise beyond their years For Ron Lieber, a personal finance columnist and father, good parenting means talking about money with our kids. Children are hyper-aware of money, and they have scores of questions about its nuances. But when parents shy away from the topic, they lose a tremendous opportunity—not just to model the basic financial behaviors that are increasingly important for young adults but also to imprint lessons about what the family truly values. Written in a warm, accessible voice, grounded in real-world experience and stories from families with a range of incomes, The Opposite of Spoiled is both a practical guidebook and a values-based philosophy. The foundation of the book is a detailed blueprint for the best ways to handle the basics: the tooth fairy, allowance, chores, charity, saving, birthdays, holidays, cell phones, checking accounts, clothing, cars, part-time jobs, and college tuition. It identifies a set of traits and virtues that embody the opposite of spoiled, and shares how to embrace the topic of money to help parents raise kids who are more generous and less materialistic. But The Opposite of Spoiled is also a promise to our kids that we will make them better with money than we are. It is for all of the parents who know that honest conversations about money with their curious children can help them become more patient and prudent, but who don't know how and when to start.

We all want our children to reach their fullest potential—to be smart and well adjusted, and to make a difference in the world. We wonder why, for some people, success seems to come so naturally. Could the secret be how they were parented? This book unveils how parenting helped shape some of the most fascinating people you will ever encounter, by doing things that almost any parent can do. You don't have to be wealthy or influential to ensure your child reaches their greatest potential. What you do need is commitment—and the strategies outlined in this book. In The Formula: Unlocking the Secrets to Raising Highly Successful Children, Harvard economist Ronald Ferguson, named in a New York Times profile as the foremost expert on the US educational "achievement gap," along with award-winning journalist Tatsha Robertson, reveal an intriguing blueprint for helping children from all types of backgrounds become successful adults. Informed by hundreds of interviews, the book includes never-before-published insights from the "How I was Parented Project" at Harvard University, which draws on the varying life experiences of 120 Harvard students. Ferguson and Robertson have isolated a pattern with eight roles of the "Master Parent" that make up the Formula: the Early Learning Partner, the Flight Engineer, the Fixer, the Revealer, the Philosopher, the Model, the Negotiator, and the GPS Navigational Voice. The Formula combines the latest scientific research on child development, learning, and brain growth and illustrates with life stories of extraordinary individuals—from the Harvard-educated Ghanian entrepreneur who, as the young child of a rural doctor, was welcomed in his father's secretive late-night political meetings; to the nation's youngest state-wide elected official, whose hardworking father taught him math and science during grueling days on the family farm in Kentucky; to the DREAMer immigration lawyer whose low-wage mother pawned her wedding ring to buy her academically outstanding child a special flute. The Formula reveals strategies on how you—regardless of race, class, or background—can help your children become the best they can be and shows ways to maximize their chances for happy and purposeful lives.

Barbie or Lego? Reading maps or reading emotions? Do you have a female brain or a male brain? Or is that the wrong question? On a daily basis we face deeply ingrained beliefs that our sex determines our skills and preferences, from toys and colours to career choice and salaries. Using the latest cutting-edge neuroscience, Gina Rippon unpacks the stereotypes that bombard us from our earliest moments and shows how these messages mould our ideas of ourselves and even shape our brains. Rigorous, timely and liberating, The Gendered Brain has huge repercussions for women and men, for parents and children, and for how we identify ourselves. 'Highly accessible... If you're looking for practical information to answer all your "How?" "What?" and "Why?" questions about money, this book is for you. Dave Ramsey's Complete Guide to Money covers the A to Z of Dave's money teaching, including how to budget, save, dump debt, and invest. You'll also learn all about insurance, mortgage options, marketing, bargain hunting and the most important element of all-giving. This is the handbook of Financial Peace University. If you've already been through Dave's nine-week class, you won't find much new information in this book. This book collects a lot of what he's been teaching in FPU classes for 20 years, so if you've been through class, you've already heard it! It also covers the Baby Steps Dave wrote about in The Total Money Makeover, and trust us—the Baby Steps haven't changed a bit. So if you've already memorized everything Dave's ever said about money, you probably don't need this book. But if you're new to this stuff or just want the all-in-one resource for your bookshelf, this is it!

In Love Your Life, Not Theirs, Rachel Cruze shines a spotlight on the most damaging money habit we have: comparing ourselves to others. Then she unpacks seven essential money habits for living the life we really want--a life in line with our values, where we can afford the things we want to buy without being buried under debt, stress, and worry. The Joneses are broke. Life looks good, but hid beneath that glossy exterior are credit card bills, student loans, car payments, and an out-of-control mortgage. Their money situation is a mess, and they're trying to live a life they simply can't afford. So why exactly do we try so hard to keep up with the Joneses? Are we really living the lives we want, or are we chasing someone else's dream, just trying to keep up appearances on social media, church, and in our community? Why are we letting other people set the pace for our own family's finances? In Love Your Life, Not Theirs, Rachel shows you how to buy and do the things that are important to you--the right way. That starts by choosing to quit the comparisons, reframing the way you think about money, and developing new habits like avoiding debt, living on a plan, watching you spending, saving for the future, having healthy conversations about money, and giving. These habits work, and Rachel is living proof. Now, she wants to empower you to live the life you've always dreamed of without creating the debt, stress, and worry that are all too often part of the deal. Social media isn't real life, and trying to keep up with the Joneses will never get you anywhere. It's time to live--and love--your life, not theirs. "I've never read a book about money that takes this approach--and that's a good thing! Comparison has a way of weaving itself throughout all aspects of our lives, including our money. In Love Your Life, Not Theirs, Rachel Cruze outlines the seven money habits that really matter--and they have nothing to do with keeping up with the Joneses!" Candace Cameron Bure Actress, author, and co-host of The View "Love Your Life, Not Theirs is full of the kind of practical, straightforward advice we've come to expect from Rachel Cruze. She offers guidance on paying down debt, smart saving, and the right way to talk to your spouse about money. These indispensable tips can help with day-to-day spending decisions and put you on a path to establishing healthy financial habits." Susan Spencer Editor-in-Chief for Woman's Day "Cruze's self-deprecating and honest voice is a great resource for anyone wanting to take charge of their money. With humor and approachability, she helps her readers set themselves up for success and happiness, no matter what current financial state they may be in." Where the Light Gets In "In today's world of social media, the temptation to play the comparison game is stronger than ever.
