The purpose of this manual is to provide clear and helpful information for maintaining gravel roads. Very little technical help is available to small agencies that are responsible for managing these roads. Gravel road maintenance has traditionally been "more of an art than a science" and very few formal standards exist. This manual contains guidelines to help answer the questions that arise concerning gravel road maintenance such as: What is enough surface crown? What is too much? What causes corrugation? The information is as nontechnical as possible without sacrificing clear guidelines and instructions on how to do the job right.

Keeping historic buildings in good repair and, where possible, in use, is the key to their preservation. Owners of listed buildings are under no statutory obligation to maintain their property in a good state of repair, although it is in their interests to do so. Local authorities can, however, take action to secure repair when it becomes evident that a building is being allowed to deteriorate. Urgent Works Notices, Repairs Notices and Section 215 Notices can be very effective tools to help secure the preservation of historic buildings. This guidance is designed to help local authorities make effective use of these powers. It provides step-by-step advice on the use of the main procedures and includes case studies and a selection of specimen letters, notices, schedules and agreements. Samples of these are available to download at the bottom of this page for local authorities wishing to edit them for their own use.

“A passionate, incisive critique of the many ways in which women and girls of color are systematically erased or marginalized in discussions of police violence.” —Michelle Alexander, author of *The New Jim Crow* *Invisible No More* is a timely examination of how Black women, Indigenous women, and women of color experience racial profiling, police brutality, and immigration enforcement. By placing the individual stories of Sandra Bland, Rekia Boyd, Dajerria Becton, Monica Jones, and Mya Hall in the broader context of the twin epidemics of police violence and mass incarceration, Andrea Ritchie documents the evolution of movements centered around women's experiences of policing. Featuring a powerful forward by activist Angela Davis, *Invisible No More* is an essential exposé on police violence against WOC that demands a radical rethinking of our visions of safety—and the means we devote to achieving it.
